

NEW CONSTRUCTION MUNICIPAL BUILDING

Robert W. Healy Public Safety Facility Cambridge, Massachusetts

Project Scope of Work

Boston Building & Bridge Corp. served as the general contractor to renovate and completely fit out an existing 110,000 s.f. former office building into the City of Cambridge Police Headquarters and Emergency Response Center. The facility includes booking and holding cells, administrative offices, a media room, full service fitness area, as well as a state of the art forensic laboratory. The 5th floor functions as the City of Cambridge 911 and Emergency Operation Center. To meet the City of Cambridge 's standard of a LEED Silver certification rating, the new headquarters includes a green roof, a high performance HVAC system, occupancy sensors, and low VOC emitting finishes and sealants. The Robert W. Healy Public Safety Facility. is one of the first LEED Silver Certified police stations in New England.

PROJECT SUMMARY
